AI Security Analysis Report

Analysis for: e.emailksa.com

Security Report: ForbesVPPASettlement@e.emailksa.com

1. Executive Summary

This security report summarizes the analysis of an email sent from ForbesVPPASettlement@e.emailksa.com, with a filename of Legal Notice of Class Action Settlement.eml. The email was found to have high-risk phishing detected, with a score of 57, and contains high-risk keywords such as "click here," "paypal," and "zelle." Despite passing authentication checks (SPF, DKIM, DMARC), the presence of these indicators warrants further investigation.

2. Risk Assessment

The risk assessment for this email is categorized as SUSPICIOUS due to the presence of high-risk phishing detected and keywords. While the email passes authentication checks, the suspicious links and keywords suggest a potential phishing attempt. The absence of attachments and a single hop route analysis do not significantly impact the overall risk assessment.

3. Key Security Findings

- High-risk phishing detected with a score of 57
- Presence of high-risk keywords: "click here," "paypal," and "zelle"
- Email passes authentication checks (SPF, DKIM, DMARC)
- No attachments found
- Single hop route analysis

4. Recommendations for Further Investigation

To further investigate this email, we recommend the following:

- Verify the authenticity of the sender by contacting ForbesVPPASettlement@e.emailksa.com directly to confirm the legitimacy of the email and the class action settlement.

- Analyze the links found in the email using a reputable link scanner or sandboxing tool to determine if they are malicious or legitimate.

- Review the email's content for any additional suspicious indicators, such as typosquatted domains or generic greetings.

5. Overall Verdict

Based on the analysis, this email is categorized as SUSPICIOUS due to the presence of high-risk phishing detected and keywords. While it passes authentication checks, further investigation is necessary to determine the legitimacy of the email and the class action settlement.

6. Final Recommendation

In light of these findings, we strongly recommend that the recipient exercise caution when interacting with this email. Before taking any actions or providing sensitive information, verify the authenticity of the sender and thoroughly analyze the links found in the email. If you are unsure about the legitimacy of the email or the class action settlement, do not respond to the email or provide any sensitive information. Instead, contact ForbesVPPASettlement@e.emailksa.com directly to confirm the legitimacy of the email and the class action settlement.
